Objective

I have over three years of experience developing scalable, dynamic, and responsive websites as a Frontend and WordPress developer. With an emphasis on user experience and performance, I am skilled in creating unique themes, ACF blocks, server deployment, and GSAP animations. I enjoy creating cutting-edge digital solutions and working in high-growth, fast-paced, team-oriented settings.

Experience

WordPress Developer & Team Lead | Sigma Digital Solutions - Islamabad Nov 2023 – Present

- Managed teams of developers, worked in sync with PMs, and juggled numerous client projects at one time.
- Custom WordPress theme development using ACF Flexible Content and Elementor to create reusable page blocks.
- Created complex filter systems, Google Maps integrations, and custom job portals.
- Developed multi-site networks on NGINX and Apache servers, managed server deployments (cPanel, Cloudflare).
- Customized plugins and themes to meet unique client requirements.
- Performed code reviews, optimized the website's performance, and maintained pixel-perfect UI as per Figma designs.
- Implemented Stripe payment method for e-commerce websites.

Frontend Developer | SevenKoncepts - Rawalpindi June 2021 – Oct 2023

- Collaborated with a team to design and implement front-end solutions for multiple projects.
- Worked on React/Next.js projects, dynamically loading data from APIs, and implementing SEO-related tasks.
- Developed responsive and pixel-perfect designs using HTML, CSS, SCSS, and Bootstrap.
- Integrated GSAP and AOS animations to enhance user engagement.
- Created HTML email templates for efficient email communication.
- Converted HTML and CSS templates into Laravel Blade components.

Projects

Buyownhouse | *WordPress, ACF, Polylang, Bootstrap , Aos*

- Developed a multilingual platform featuring reusable templates, custom SVG animations, and property search and filter features.
- Added SVG-based animations and used ACF to create dynamic pages.

Sleepmod.com | *WordPress, WooCommerce, ACF, jQuery, Bootstrap*

- WooCommerce integration, mega menu, and unique product templates with sophisticated filtering.

Sterling Lexicon | *WordPress, ACF, Bootstrap, GSAP, Three.js*

- Created the entire website using reusable ACF components and animations in Three.js and GSAP.

Action Hotels | *WordPress, ACF, Bootstrap, AOS, Google Maps API (Cluster)*

- Developed job postings with AOS animations, a map-based hotel search, and a portfolio filter.

Careers Americana Foods | *WordPress, ACF, Bootstrap, AOS, Google Maps API (Cluster), CPTUI*

- Integrated the Google Maps API and developed unique job features with filters.
